It threatens to eat to eat us all! Hogarth ran to the iron man and said "help us please! The iron man took no notice then he continued "if he eats us all there won't be any metal left for you to eat." The iron

When a volcano erupts, it means there is enough molten rock called magma and pressure on it to cause a volcanic eruption. The magma rises up through the central tube and emerges out through the top of the volcano.

The screenshot shows the IXL website interface for the 'Addition and subtraction within 20' lesson. At the top, there's a progress bar showing '1,520 / 2,000 (76% Mastered)' and a 'Score' of 100 points. The 'Skill Summary' section indicates the user is 'Loaded up to Level 6!' and has 'Completed 100% of this skill' on '2/24/2020'. The 'Addition' section has a 'Practice' button and a 'Subtract within 10' section. The 'Subtraction' section has a 'Practice' button and a 'Subtract within 20' section. A green cartoon character is visible in the bottom right corner.

He set off on his journey, not knowing where he was going. He stumbled through a forest, condensed with tall endless trees. Carrying on, he wrapped his cloak tighter around him to protect himself from the bitter wind. The mountains were blanketed with thick, white snow. He found himself standing on the edge of a cliff with a sheer drop below him. Through the swirl of the mist he could just make out the abandoned Viking boats left to rot. Again the crows squawked. He tentatively made his way to them as he entered the ship's empty chamber. Something drew him to the rear of the ship...

There it was. In the pool of water, the sword. He lifted it as it was delicate and not the sturdy object it really was..
