

Swallow class spring term

Swallow class have loved our Master of Disaster topic and have dived into the theme this half term! We have had the opportunity to do so many things from creating our own Paper Mache volcanoes to making our own earthquake proof structures. We have done so many incredible pieces of writing including a diary entry, poems, and an explanation text. We have done lots of work around the STEM skills this term and how we can use these around the skill to improve our work. We have continued taking part in The With Flying Colours scheme, and this term we have focussed on planning our performance. Well done Swallow class!
