

Chaffinch class spring term

What's in the toy box?

This term we have been learning all about toys through History. We have looked at timelines of toys from all the way back in Victorian times. We have been sorting toys into 'new' and 'old' categories.

In Maths we have been measuring and weighing. We have been learning to use a ruler and also been using scales to weigh different items.

In English we have been writing: character descriptions, lost toy adverts and using a variety of punctuation.

In Design Technology we designed and made a car, with wheels, it also moved! We spent a long time to decide what to make the toys out of.
