

Year 4 Learning Celebration

This term we learnt about how water travels through North America.

- North American countries and climates.
- The water cycle and states of matter.
- Explored river poetry.
- Wrote narratives inspired by 'Flood'.
- Created information pages about rivers in North America.
- Created an animation explaining the water cycle.
- Created an art gallery from our sketch work and inspiration from local artist Josh Bygrave for our final oil pastel landscape picture.

Wow! It's
turned back
into water!

I am inspired to
start practising
painting!
