

Science Week Year 6 Spring 2019

1. (1 m high) In the table below tick if the toast landed butter side up, or butter side down. Carry out 20 drops

Butter side up	Butter side down

2. (2 m high) In the table below tick if the toast landed butter side up, or butter side down. Carry out 20 drops

Butter side up	Butter side down

3. Does cutting the toast into halves make a difference to the result? Carry out 20 drops.

Butter side up	Butter side down

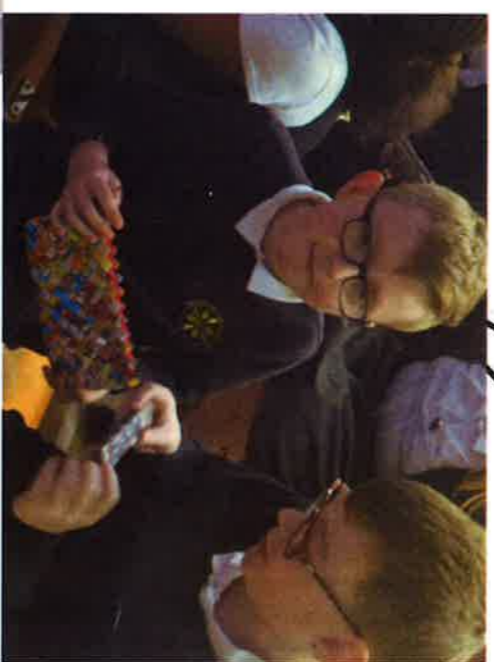

4. Does cutting the toast into quarters make a difference to the result? Carry out 20 drops.

Butter Side up	Butter Side down

Science week was really fun I learnt lots of new things and enjoyed doing experiments and watching Autumn Dobby Skiff

The best bit of the day was when we made a purse out of cardboard juice cartons. I really enjoyed it. I loved making the recycled Penrite case
-Taylor Gray Evans

The best part about making the head was putting the hair and beard on because you could put any colour anywhere and it was very fun. Skye.

I enjoyed making the juice carton wallets because it helps save the environment and its recyclable so we can reuse it as something else.
