

Year 1

Spring Learning

This term we have been learning all about toys through History. We have looked at timelines of toys from all the way back in Victorian times. We have been sorting toys into 'new' and 'old' categories.

What's in the toy box?

In English we have been writing: character descriptions, lost toy adverts and using a variety of punctuation.

In Maths we have been measuring and weighing. We have been learning to use a ruler and also been using scales to weigh different items.

In Design Technology we designed and made a car, with wheels, it also moved! We spent a long time to decide what to make the toys out of.
